Automatic Tamper evident labeling machine - Nita labeling equipment does it again

Montreal, Canada., July 2008 // Nita will be showcasing the New TAMPER EVIDENT LABELING AND SAFTY SEAL LABEL APPLICATION at Pack expo 2008. The capabilities of the AE612MKII, servo driven labeling head by Nita has once again proven its reliability and accuracy. This time the labeler is packaged with an AC motor driven conveyor which is linked up to the Servo drive and HMI touch screen controller to allow the perfect application of tamper evident labels on a genpack packages or vacuum sealed meat containers. Containers or packages are easily recognized and the proper label is applied in a multitude of locations which are either pre-determined or chosen, edited and added to the operator screen's recipe window. The all too important NITA advantages are apparent in this little marvel. Stainless steel construction, Ac motor (no maintenance, lifetime durability) Servo motor driven labeling heads for better accuracy and ZERO maintenance. Speeds of 1570 inches per minute. Synchronization of all motorized components. Gradient rulers for all adjustments with recipes built-in. Password protected ,up-loadable, scaleable and downloadable recipe changes to a memory stick. Single or dual tamp evident label application with the same labeling head. Accurate and long lasting SMC pneumatics to top off the impressive array of standard features on this machine. Whether the labeling application calls for round, square or rectangular shaped tamper evident labels, The NITA tamper evident labeling system provides the top quality, performance, and reliability ratio on the market today. NO PROPRIETARY PARTS WHATSOEVER! Nita Labeling Equipment, we care about YOUR business' success, that's why we treat you like family. Toll free 1-877-961-4008,
